

INDEPENDENT  
BEIRA LOGISTICS TERMINALS  
AND SERVICES

# COMPANY OVERVIEW

# Who is IBLT&S?

IBLT&S is a state-of-the-art warehouse, depot and logistics facility in Beira, Mozambique, servicing import and export customers in Mozambique, Zimbabwe, Zambia, Malawi and the Eastern DRC.

We specialise in handling and storage of break bulk and bulk products such as minerals, tobacco, peas, rice, fertilizers and wide range of other commodities.

- Established in August 2013, IBLT&S
- Warehouse servicers provider since 2016
- Member of the J&J Group
- Local cargo and bonded area for transit cargo
- High-security operation
- 130,000m<sup>2</sup> total area (20,000m<sup>2</sup> under roof)

# Why use Beira?

Over the past years Beira port has become the most agile gateway to serve the **Central Mozambique, Malawi, Zambia, Eastern DRC and Zimbabwe** markets.

Beira logistics corridor has persisted in becoming the alternative for cost effective, fast and reliable transportation.

After dredging the channel and huge infrastructural investments Beira must be considered as an alternative to Durban and Dar Es Salaam for shippers who need a fast, cost effective and no headache logistics solution in this part of the world to avoid congestion, escalating costs and unpredictability of nearby alternatives.

# Why use Beira?

J&J Group saw the opportunity in Beira and continues to invest in the following areas...

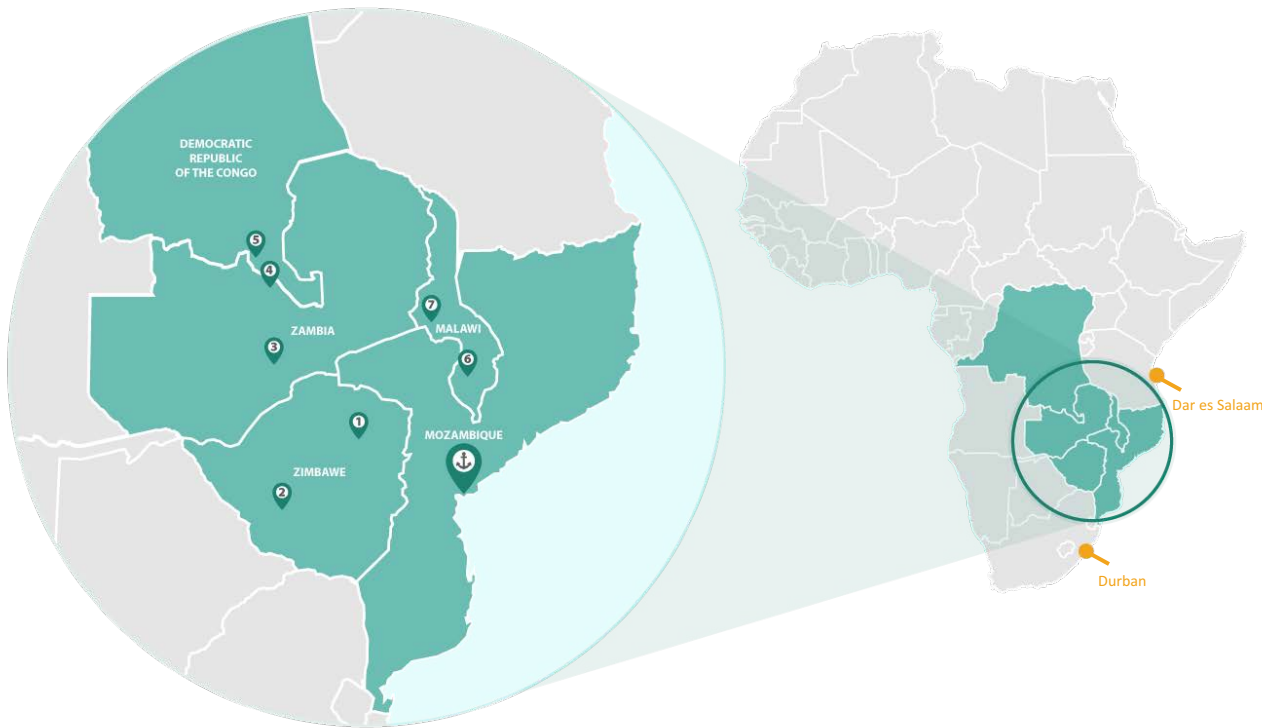

We have:

- Invested in our state of the art warehouses
- Invested in a state of the art inland container depot
- Invested in IT systems to guarantee you have full visibility of the flow of goods and the flow of information
- Invested in a state of the art, well maintained fleet with workshops in 3 countries
- Invested in people, our biggest asset, growing our number of hires by 15% in the last year.

# Location

control

# Services - Container Depot

## SERVICES

All our premises are access controlled and under 24/7 CCTV surveillance to ensure maximum security of your cargo. We also utilize a high quality Terminal Operating System from a 3rd party provider, which enables us to update our customers with timely and accurate data.

## STRIPPING & STUFFING

Our open logistics area comprises of approximately 13 hectares of which 11 are fully paved. We operate one 45mt Full Container Handler, one Empty Container Handler (Kalmar) and several smaller machines enabling us to handle empty and full containers, 1mt IBCs, bags, pallets, drums, bulk cargo, etc.

## CONTAINER STORAGE

We offer our client cost effective container storage solutions (full/empty).

## FUMIGATION

Our paved logistics area is ideal for fumigation of certain containerized goods. The fumigation itself will be handled by 3rd parties which are operating on site.

# Services - Container Depot

## DAANGEROUS GOODS

We are able to handle certain 'Dangerous Goods' upon request. For us to evaluate the feasibility to handle your cargo, please provide us with all details as per the International Maritime Dangerous Goods (IMDG) Code such as the IMO class, UN Number and Packing Group.

## WEIGHING

IBLT&S has a 70mt / 22m heavy duty weighbridge installed on site. The heavy duty weighbridge is fully integrated into our warehouse management system and VGM (Verified Gross Mass) certified by the authorities.

We also operate a single axle and a container scale.

## OUT OF GAUGE (OOG) GOODS

IBLT&S is also capable of handling OOG goods. Please inform us in detail about the dimensions (length x width x height), cargo weight (in metric tons) and the services required.

## ELECTRONIC DATA INTERCHANGE (EDI)

Our computer system can be customized for EDI solutions. Please contact us for your requirements.

# Services - Warehousing

We have a total of 16,000m<sup>2</sup> of local warehouse space and 4,000m<sup>2</sup> under construction to be completed by mid 2018.

By combining the container depot with warehouses we offer full flexibility for the handling of any cargo.

We can handle all your storage and distribution needs quickly, safely and cost-effectively. Our facilities are backed up by well trained skilled staff with many years of experience.

We have invested in state of the art cargo tallying systems which can be designed or modified to suit client's particular needs and requirements.

We are positioned to service all needs, providing customers with quick and cost-efficient movement of cargo to storage.
